Identifier: **2IS/Airglades Airport**
CTAF: **123.05** *ATC:* **132.45**
Operating: **Thurs-Mon/0800-sunset**
Phone: **863-683-6151**

SKYDIVE SPACELAND FLORIDA is a high-volume, multi-turbine skydiving center. We do our best to deconflict with traffic, but we need your help too! It's safest to always fly at least 3NM from Airglades Airport, and we highly recommend monitoring CTAF (123.05), or ATC (132.45), when operating within 10NM. We're always happy to help you transition through the area.

We see many incursions and near misses due to lack of awareness of our busy, daily operations from 14,000MSL-SFC

WARNING: Entering the pattern crosswind/over the top will put you directly in conflict with any parachutes in the air.

Please help us spread the
